## DETAILED ACTION

### *Election/Restrictions*

1. Applicant's election with traverse of Species as shown in figures 1, 2, and 4 in the reply filed on 06/15/2006 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Rhodes (U.S. 5,665,117).

Rhodes discloses the claimed invention in figures 1-6, a sealing member (30) connected to a tubular member (32) and being configured to surround the tubular member (32); wherein the sealing member (30) forms of a frustoconical profile; and a biasing member (34,36) connected to the sealing member (30).

### *Conclusion*

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Marcade (U.S. 5,676,696) discloses a bifurcated graft device.
